my own visa/work permit within 6-8 weeks. My notice period is 30 days.

TECHNICAL SKILLS

AI & Machine Learning: Prompt Engineering (1) | LLM Integration (1) | RAG Pipelines (1) | OpenAI API (2) | LangChain (1)
Frontend Development: HTML (7) | CSS (7) | SCSS (4) | LESS (4) | JavaScript (7) | TypeScript (5) | React.js (7) | Vue.js (7) | Next.js (5) | Nuxt.js (5) | Vite (5) | Bootstrap (7) | Material UI (4) | Vuetify (5) | jQuery (2)
Backend & Databases: Python (7) | Node.js (6) | PHP (6) | Laravel (6) | SQL (4) | Postgres (2) | REST APIs (5) | GraphQL (2) | C++ (2)
Cloud & DevOps: AWS (3) | Azure (3) | Docker (2) | Postman (5) | Git (5)
Testing & Methodologies: Jest (2) | Cypress (2) | Playwright (1) | Storybook.js (1) | Agile (6)

WORK EXPERIENCE

11/2023 – Present:

Full Stack Engineer
Freelance, Vienna, Austria
Founder: getlaunchai.vercel.app - AI-powered platform that transforms users' skills and budget into actionable startup launch plans.

- Built and launched a full-stack AI SaaS (**React, TypeScript, Next.js**) that generates personalized business blueprints, 4-phase roadmaps, and shareable Markdown launch kits.
- Automated auth, storage, usage limits, AI generation, and exports via structured prompt engineering, iteratively improving output quality from tester feedback.

Project: taxiscreen.at - Digital advertising platform for taxis used by 1k+ users in Vienna.

- AI-powered development utilizing OpenAI APIs and structured prompt engineering to build a digital taxi advertising platform in React.js, Vue.js, TypeScript, and PostgreSQL for dynamic content and campaign management.
- Optimized ad content generation and personalized campaign recommendations using automated data workflows and targeted AI instructions.

Technologies used: React.js | Vue.js | PostgreSQL | Typescript | Node.js | AI | Javascript | HTML | CSS |

10/2021 – 10/2023

Full Stack Engineer
Socialbu, Lahore, Pakistan
Product: socialbu.com - All-in-one social media management and automation platform used by 28k+ users globally.

- Architected high-performance features for an all-in-one social media management platform using Vue.js, React, and TypeScript, delivering a sleek, highly responsive user interface.
- Integrated cutting-edge AI capabilities and robust backend services using Laravel, Python, and AWS to streamline multi-platform automation, content generation, and data-driven scheduling.

Product: linkmngr.com - Branded link management and link-in-bio platform used by creators and marketers worldwide.

- Engineered and developed core features for a branded link management and link-in-bio platform using React, Vue.js, and TypeScript, delivering a high-speed, intuitive user interface.
- Architected and implemented robust backend services, APIs, and analytics tracking pipelines using Laravel, PostgreSQL, Python, and AWS to process high-volume click streams, custom domains, and user telemetry.

Technologies used: React.js | Vue.js | Laravel | Python | AWS | PostgreSQL | SQL | TypeScript | AI | Git | SCSS | LESS | SASS | Bootstrap | JavaScript | HTML | CSS | Agile | Jest

01/2021 – 10/2021

Software Engineer
Invozone, Lahore, Pakistan
Projects: nymcard.com - BaaS and embedded fintech platform and ernestsports.com - Real-time sports data visualization applications**.**

- Engineered high-performance dashboards and user interfaces using React.js, Vue.js, and TypeScript for FinTech and sports analytics platforms, increasing user engagement by 22% and cutting load times by 30%.
- Accelerated full-stack workflows by integrating frontend components with backend APIs, AWS cloud services, and PostgreSQL databases (Laravel/Python), speeding up data synchronization cycles by 15%.

Technologies used: React.js | Vue.js | Laravel | Python | AWS | PostgreSQL | SQL | TypeScript | Git | SCSS | LESS | SASS | Bootstrap | JavaScript | HTML | CSS | GraphQL | Vuetify | Nuxt.js

09/2020 – 12/2020

Associate Software Engineer
Programmers Force, Lahore, Pakistan
Product: programmersforce.com - Product-focused tech company building enterprise software. Delivered 3 core SaaS dashboards using React.js and TypeScript, increasing active user engagement by 18% and reducing page load times by 25%. **Technologies used:** React.js | Vue.js | Git | SCSS | LESS | SASS | Bootstrap | JavaScript | HTML | CSS

04/2019 – 07/2020

Front-End Developer
J&Q Technologies, Lahore, Pakistan
Project: jnqtech.com — A global IT solutions and software provider specializing in custom web/mobile applications and cloud platforms. Engineered 4+ responsive web applications using React.js and Vue.js, reducing feature delivery time by 20% through standardized tooling evaluations and documentation maintenance. **Technologies used:** React.js | Vue.js | Git | SCSS | LESS | SASS | Bootstrap | JavaScript

EDUCATION

10/2024 - Present

Master's / Computational Science and Engineering
Technical University of Vienna, Austria

10/2014 – 12/2018

Bachelor's / Software Engineering
Minhaj University Lahore, Pakistan
